## PROFILE

With over a decade of experience in the hospitality industry, I am seeking an opportunity to transition into full stack web development, growing in this next chapter of my career life. I have honed my adaptability in high stress situations, contributed actively as a team member, communicated effectively with all types of customers, and learned to solve problems in the moment. Having completed Georgia Tech's edX Coding Boot Camp, I feel prepared to redirect these skills to thrive as a part of your team in this industry.
